

Students – Series 3000

Enrollment and Attendance Records – 3120

Since accurate enrollment and attendance records are essential, both to obtain state financial reimbursement and to fulfill the district's responsibilities under the attendance laws, staff shall be diligent in maintaining such records.

The school district shall not require proof of residency or any other information regarding an address for any student who is eligible by reason of age for the services of the district if the student does not have a legal residence. The request for enrollment may be made by the student, parent or guardian.

The Superintendent shall develop procedures for enrolling students, recording attendance behavior and counseling and correcting students with attendance problems. When enrolling a student who has attended school in another school district, the parent and/or student will be required to inform staff of the last school attended. The parents and and/or student will also be requested to briefly indicate in writing whether or not the student has any history of placement in a special education program; any past, current or pending disciplinary actions; any history of violent behavior or convictions, adjudications or diversion agreements related to a violent offense, a sex offense, inhaling toxic fumes, a drug offense, a liquor violation, assault, kidnapping, harassment, stalking or arson; any unpaid fines or fees from other schools; and any health conditions affecting the student's educational needs.
