

Community Relations – Series 4000

Visitors – 4311

While the welfare of students and the orderly operation of the educational process are prime concerns of the school district, parent and public visitations and observations of the schools and the educational program promote understanding and communication.

It is the policy of the Peninsula School Board to encourage public visitations to the schools with a minimum disruption of the educational program. The Superintendent or his/her designee shall develop procedures to implement this policy.

1. To authorize public visitation of school buildings and educational programs.
2. To promote public understanding of the district's education program.
