

Human Resources – Series 5000

Student Teachers – 5425

The Board encourages cooperation with colleges and universities in the training of student teachers. The Superintendent or designee shall develop a procedure for the acceptance and placement of student teachers.

The Board authorizes the Superintendent or designee to honor those reasonable rules, regulations, and training guidelines of the teacher training institution. The teacher training institution shall be expected to provide liaison personnel who shall work cooperatively throughout the training process with the principal and the supervising teacher.

The Superintendent or designee shall coordinate the request for placement with building principals in order to avoid excessive concentrations of student teachers in any given building. Student teachers shall comply with the policies of the District.
